The 2020 VZ Tinto has harmonious, ripe and fruit-driven aromas and flavors. It was produced from different vineyards at different altitudes and ages, all with mixed varieties fermented in lagar and foot trodden and part finished in stainless steel and matured in barrel for some 20 months. It's ripe without excess, with abundant, fine tannins and some spiciness in the finish. 8,000 bottles produced. It was bottled in March 2023.
